

General Notes

- Casual tone
- Keep to about one page
- Additional information from other [non wikipedia] sources is not necessary but if you want to add some, go ahead
- Make sure to explain how greebles help with mental image three dimensional object rotation **and** facial recognition
- Focus on styling and image
 - Especially show off the greebles themselves
- Do **not** confuse for greebling as in the design element featured in many sci-fi material, they are unaffiliated subjects
